THERE IS "O SUBSTITUTE FOR A WOVEN WIRE BED.

The Woven Wire Bed has become so deservedly popular that 999 out of every 1,000 beds sold are of that make. Why? Because, when properly constructed, it has excellences possessed by no other. A level, flexible top, no gaps, will always resume its snap after use. Its supports, however, must be rigid. Wire or hoop iron will not support a spring bed.

When you buy one of Bailey's Rest and Vermin-proof Wire Beds, you get an article very close to perfection and at the factory on Alapai St. Tel. Main 1661.
